VERTICAL BALER: V74XHD

BACE

When the opening of a standard size Vertical Baler is not quite big enough and high density bales are required, the V74XHD is the design of choice. With it's 70" X 40" deep opening and deep penetration cylinder, this baler will generate extremely dense bales of large Gaylord or furniture sized boxes, large plastic containers or other large recyclable items.

BACE equipment meets or exceeds
ANSI Standard Z245.5

VERTICAL BALER: V74XHD

Our standard V74XHD (heavy duty) features a 20 HP High Efficiency Power Unit.
